#### **INDEPENDENT AUDITORS' REPORT**

To the Board of Directors Pacific West Securities, Inc. Renton, Washington

We have audited the accompanying statement of financial condition of Pacific West Securities, Inc. as of December 31, 2004, and the related statements of operations, stockholders' equity, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Pacific West Securities, Inc. as of December 31, 2004, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information included in Schedules I and II is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

See Notes to Financial Statements

#### NOTES TO FINANCIAL STATEMENTS

### Note 1. Organization and Significant Accounting Policies

#### **Organization**

Pacific West Securities, Inc. ("the Company") is a securities broker and dealer as approved by the Securities and Exchange Commission and the National Association of Securities Dealers, Inc. The Company's customers are primarily people located in the Pacific Northwest. In the normal course of business, the Company's customer, trading, and correspondent clearance activities involve the execution, settlement, and financing of various securities transactions. These activities may expose the Company to risk in the event the other party to the transaction is unable to fulfill its contractual obligations.

The Company is a wholly-owned subsidiary of Pacific West Financial Group Holding Company, LLC ("the Holding LLC") and is related to other companies in the financial services industry.

#### Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from the estimates.

#### Cash

Cash consists of cash in banks and money market funds. The Company occasionally has deposits in excess of federally insured limits.

#### Commissions Receivable

The Company uses the allowance method to recognize bad debts. Management regularly reviews receivables and, based on its knowledge of its customers, considers the need for an allowance. Generally, any receivables over 90 days old are considered delinquent. At December 31, 2004, no allowance was considered necessary. If an allowance were established, any bad debts would be written off against it (when determined to be uncollectible).

Of the total commissions receivable balance, 44% is due from two organizations at December 31, 2004.

#### Note Receivable

The note is receivable from an individual (a sales representative for the Company) and is due in full in 2005. The note bears no interest and is unsecured.

#### Revenue Recognition

Commission revenue associated with securities transactions is recognized on a trade date basis. The Company also earns commission or fee revenue when its customers hold investments in certain mutual funds or limited partnerships, or certain types of transactions are closed. This commission revenue is recognized when earned.

#### **Investments**

Investments consist primarily of common stocks and are recorded at fair market value.

#### **Income Taxes**

The Company accounts for income taxes under an asset and liability approach that requires the recognition of deferred tax assets and liabilities for expected future tax consequences of events that have been recognized in the Company's financial statements or income tax returns. In estimating future tax consequences, the Company generally considers all expected future events other than enactments of changes in the tax laws or rates.

Most of the Company's deferred tax asset results from recognizing investments at market value for financial statement purposes and at cost for income tax purposes. The Company's management believes it is more likely than not that all of the deferred tax asset will be realized. Therefore, no valuation reserve has been provided (and there was no change in the valuation reserve during the year).

The 2004 income tax provision consists of:

Current provision	\$ 546,870
Deferred provision	 (4,800)
	\$ 542,070

#### **Contingencies**

The Company is a defendant in several legal actions, which are being contested. Management believes that, in general, it has adequate insurance coverage for these actions should the Company not prevail in its defense. In some cases, there may not be insurance coverage, but management believes the costs to resolve these cases will not be significant. Overall, management believes the resolution of these actions will not have a material impact on the Company's financial position.

#### Note 2. Clearing Organizations

The Company has an agreement with other securities brokers and dealers to act as clearing organizations for the Company. The clearing organizations clear all security transactions that require clearing services, and maintain its customer accounts on behalf of the Company.

#### Note 3. Related Party Transactions

Commissions receivable include \$242,929 from a limited liability company ("LLC") managed in part by a relative of the members of the Holding LLC. Commissions earned from this LLC in 2004 were \$936,046.

Also, during 2004, the Company paid a company owned by the members of the Holding LLC \$2,410,044 for financial, administrative and other services, and for facility costs. The Company expects to pay approximately \$2,600,000 to this related company in 2005 for similar services.

### Note 4. Net Capital Requirements

The Company is subject to the SEC Uniform Net Capital Rule (Rule 15c3-1). Accordingly, the Company is required to maintain a minimum level of net capital (as defined) of \$100,000. At December 31, 2004, the Company had computed net capital of \$1,294,100, which was in excess of the required net capital level by \$1,194,100. In addition, the Company is not allowed to have a ratio of aggregate indebtedness to net capital (as defined) in excess of 15 to 1. At December 31, 2004, the Company's ratio of aggregate indebtedness to net capital was 0.94 to 1.

#### Note 5. Subsequent Event

In January 2005, the Company paid a dividend of \$109,091. This dividend did not result in a net capital violation.

# INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL REQUIRED BY SEC RULE 17a-5 FOR A BROKER-DEALER CLAIMING AN EXEMPTION FROM SEC RULE 15c3-3

To the Board of Directors Pacific West Securities, Inc. Renton, Washington

In planning and performing our audit of the financial statements and supplemental schedules of Pacific West Securities, Inc. for the year ended December 31, 2004, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission, we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- 1. Making quarterly securities examinations, counts, verifications, and comparisons.
- 2. Recordation of differences required by Rule 17a-13.
- 3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of Pacific West Securities, Inc. is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Securities and Exchange Commission's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with

reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities, which we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Securities and Exchange Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2004, to meet the Securities and Exchange Commission's objectives.

This report is intended solely for the use of the Board of Directors, management, the Securities and Exchange Commission and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

Peterson Salli-PLLC
